Regional Public Library in Krakow would like to invite you to participate in „City Architecture project. Krakow's perspective” project.

The project consists of workshops and open meetings devoted to contemporary architecture of cities. Events will take place from May to September 2019 at the Regional Public Library in Krakow and in the Arteteka of Regional Public Library in Krakow.

We invite you to: A series of open meetings devoted to contemporary architecture.

Invited guests, as specialists in the field of architecture, spatial planning and civic activities, will draw attention to various aspects of Krakow's urban architecture. Meetings aim to showcase the unusual phenomenon of understanding architectural space and draw attention to the uniqueness of the dimension of city space:

On the 11th of May, with Beata Chomątowska we will discuss why are we still covering reality in concrete and living in concrete houses.

On May 29th, we will meet with Dorota Leśniak-Rychlak, representative of the quarterly "Autoportret. Pismo o dobrej przestrzeni". Together we will consider whether own means better, leading to discussion on social responsibility for urban spaces in Krakow.
