

## **Film: „Do I have to pay taxes?”**

2019-03-28

**If you worked last year and received a PIT-11 from your employer, you must check the tax return filled in by the National Tax Administration on the website [podatki.gov.pl](https://podatki.gov.pl).**

### **Now you can:**

- accept the statement without changes and download the Official Receipt Certificate (UPO)
- if you do not settle individually, change the method of settlement to: together with the spouse or as a single parent
- change or indicate the Public Benefit Organization (OPP) to which you want to donate 1% of your tax
- change the discount for children or add a discount
- add other data (e. g. deductions of donations for blood donation, religious worship, expenditure on rehabilitation or Internet use, contributions to an individual pension security account (IKZE)).
- reject the prepared PIT and settle it by yourself in another form. In this case, your e-PIT proposed by the office will not be taken into account.
- do nothing - then on 30 April your billing will be deemed to have been submitted

In the end you can download the UPO.
