The "Open Krakow" Program has been implemented in our city since 2016, with a number of activities aimed at creating a society living as a community, using the potential of the representatives of national and ethnic minorities and foreigners to favor the development of it. The objective of the Program is to implement the policy of Krakow's openness to the representatives of national and ethnic minorities and foreigners through building a sense of solidarity among its citizens, as well as their awareness and knowledge about the culture and customs of other nationalities; shaping a tolerant attitude towards foreigners, national and ethnic minorities.
