

Ladies and gentlemen,

From 1 April 2019, the rules for municipal waste segregation will change. The changes are outlined in the new Regulations for maintaining cleanliness and order in the Municipality of Krakow.

Almost all the objects around us are made of plastic, glass, paper and metal, that is, materials that can be recycled. Properly segregated waste can be used for the production of new articles, for example bottles, newspapers, benches in the park or bicycles.

Culture has more than one name.

Sort your waste!

DO NOT DISPOSE OF WASTE IN THE FOREST

take care of the natural environment

PLAN YOUR SHOPPING

Cut down on the amount of expired products that you have to throw away

DO NOT INCINERATE WASTE

you will poison yourself and your loved ones

REPORT ILLEGAL LANDFILLS

take care of your surroundings

USE MULTIPLE-USE PACKAGING

you will reduce the amount of waste
